

Unit 06: Review and Reflection

6.1 Concept of Review and Reflection

Review

Review is the process of revisiting previously taught content to reinforce understanding, clarify doubts, and strengthen memory.

It helps students:

- Recall key concepts
- Correct misunderstandings
- Strengthen retention
- Prepare for assessment

Reflection

Reflection is the process of thinking deeply about what has been learned, how it was learned, and how it can be applied.

It helps students:

- Analyze their learning
- Identify strengths and weaknesses
- Improve future performance
- Develop critical thinking

Importance of Review and Reflection

1. Improves long-term retention
2. Enhances understanding
3. Identifies learning gaps
4. Encourages self-assessment
5. Develops metacognitive skills
6. Supports continuous improvement

Review strengthens memory, while reflection deepens learning.

6.2 Strategies of Review

Below are active and engaging review strategies:

1. Question–Answer Pair

- Students work in pairs.
- One asks questions; the other answers.
- Improves recall and communication.

2. Classify–Categorize–Organize

- Students group information into categories.
- Helps organize concepts logically.

3. Relay

- Students answer questions in sequence.
- Each student adds one point.
- Encourages teamwork and quick thinking.

4. Guess Who?

- Students guess a concept or personality based on clues.
- Makes review interactive and fun.

5. Two Truths and a Lie

- Students state three statements (two correct, one incorrect).
- Others identify the incorrect one.
- Promotes critical thinking.

6. Snowballing

- Individual thinking → Pair discussion → Group discussion.
- Gradually expands ideas like a snowball.
- Encourages confidence.

7. Question Ball

- Teacher throws a soft ball to a student.
- The student answers a question.
- Promotes active participation.

8. Run to the Board

- Students run to write answers on board.
- Energizing and competitive strategy.

- Useful for quick revision.

6.3 Reflective Approaches

Reflective approaches focus on analyzing learning experiences.

1. Self-Reflection

- Students evaluate their own learning.
- Example questions:
 - What did I learn today?
 - What was difficult?
 - How can I improve?

2. Peer Reflection

- Students give feedback to classmates.
- Encourages constructive criticism.

3. Reflective Journals

- Students write about their learning experiences.
- Promotes deeper understanding.

4. Exit Tickets

- Short written response at end of class.
- Example: “One thing I learned today is...”

5. Portfolio Reflection

- Collection of student work with reflection notes.
- Shows progress over time.

6. What? So What? Now What?

- What did I learn?
- Why is it important?
- What will I do next?

Encourages application of knowledge.
